RESPONSE TO SPECIES ELECTION REQUIREMENT

RECEIVED

DEC 05 2002

TECH CENTER 1600/2900

Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

This is in response to the Office Action in the form of a Species Election Requirement that was mailed on September 23, 2002. The Examiner asserted that the claims are generic to a plurality of disclosed patently distinct species comprising mono or diester dicarboxylates, such as monomethyl malonate or dihexyl succinate. The Examiner required Applicants to elect a single disclosed species, even though this requirement is traversed.

Applicants respectfully traverse this requirement. Applicants respectfully submit that in searching for compositions of hydrogen peroxide and any single mono-or-diester dicarboxylate, the Examiner will encounter the entire range of claimed mono-or-diester dicarboxylates. Therefore, it is respectfully asserted that searching the present claims presents no undue burden.

Nonetheless, should the Examiner maintain the species election requirement, Applicants elect the species of sebacic acid esters for searching at this time. Applicants respectfully submit that in searching for any particular sebacic acid esters, the Examiner will search the entire range of sebacic acid esters. Therefore, it is respectfully submitted that searching all sebacic acid esters presents no undue burden.

Should the Examiner required the election of a single sebacic acid esters for searching at this time, Applicants elect monomethyl sebacate.

Applicants note that should a generic claim be found allowable, the species election requirement will be withdrawn.

Petition for Extension of Time

It is noted in a one-month petition for extension of time is necessary to provide for timeliness of the response. A request for such an extension is made extending the time for response from October 23, 2002 to November 23, 2002, which fell on a Saturday, extending the time for response to Monday, November 25, 2002.

Respectfully submitted,

MERCHANT & GOULD P.C.
